

Gas Distribution

A HENKELS & MCCOY Group Company

Henkels & McCoy offers a complete range of natural gas distribution services, incorporating the most modern and efficient methods of installation for all types and sizes of pipe for residential, commercial, and industrial applications.

Our experience in the market spans over 60 years of performing the installation of gate stations, mains, service lines, and everything between. We have honed skills that give customers confidence that projects will be carried out safely with quality and timeliness. With nearly 5,000 employees, we have the highest levels of project management and construction expertise. Our ability to handle a variety of contracting methods gives you the flexibility to structure work to suit your needs, whether it involves a new system installation in a subdivision, a complex renewal program, or assisting with your Integrity Management Plan.

By stressing the ideal of "Nobody Gets Hurt!" we make safety an essential component of the value we offer. Through implementation of Project Management Methodology, we earn trust and business by completing work over and above expectations without surprises.

By implementing the ideal of Continuous Improvement we remove waste from business and construction processes in order to improve productivity. The goal is to do more at less cost, resulting in savings for you. We expand this focus beyond our own performance and examine interface points and processes with our customers as well. And, with a national footprint, we have access to the latest industry initiatives and can help provide solutions for you. We are proud to work with numerous LDCs across the country to assist them in this endeavor.

PERFORMANCE has built our business...®

Henkels & McCoy at a glance...

Henkels & McCoy is one of the largest privately held firms serving the gas, power, communications, and information technology industries. We have more than eighty offices strategically located from New England to Hawaii.

Focus on project management

Henkels & McCoy's formalized Project Management Program represents a companywide commitment to excellence. Formal and on-line training focuses on a variety of skill sets including job tracking, cost management, leadership, client management, and communications skills. Our customers realize the benefits of our efforts through improved efficiency and reduced costs relative to scheduling, material management, self-inspection, reduction of administrative expense through electronic communications, and sophisticated tracking mechanisms.

Commitment to safety

Safety is a value at Henkels & McCoy and represents a commitment to protect our employees, customers, and the public. Based on this philosophy, we have created a corporate safety program that is well known throughout the industry and assures that our safety performance results from continual evaluation and implementation of company and industry wide best practices. In addition to our own initiatives, we will obviously uphold the standards and procedures adopted by our customer.
