- Program Project Delivery (OSP & ISP)
- LAN (Structured Cabling, Data Centers, PON)
- Wireless (DAS, WiFi)
- Professional Services (LAN, Wireless, Monitoring & Maintenance)

Founded in 1923, Henkels & McCoy adapts 90+ years of experience to the dynamic and evolving infrastructure needs of today. What began as a tree trimming, landscaping, and tennis court construction company outside of Philadelphia is now one of the largest privately held firms designing, building, and maintaining infrastructure for the power, oil & gas pipeline, gas distribution, and communications industries in North America.

With more than 70 regional, area, and project offices from New England to Hawaii, over 5,000 trained and skilled personnel, and 6,500 pieces of modern equipment, we execute projects of all sizes and complexity. Our expertise and ability to scale provides the resources vital to long-term relationships with our customers, who trust us to perform to the highest standards of safety, quality, and efficiency. We consistently rank in the top 10 of *Engineering News-Record's* Specialty Contractors and have been recognized with an E. I. DuPont Safety Excellence Award.

Commitment to Safety

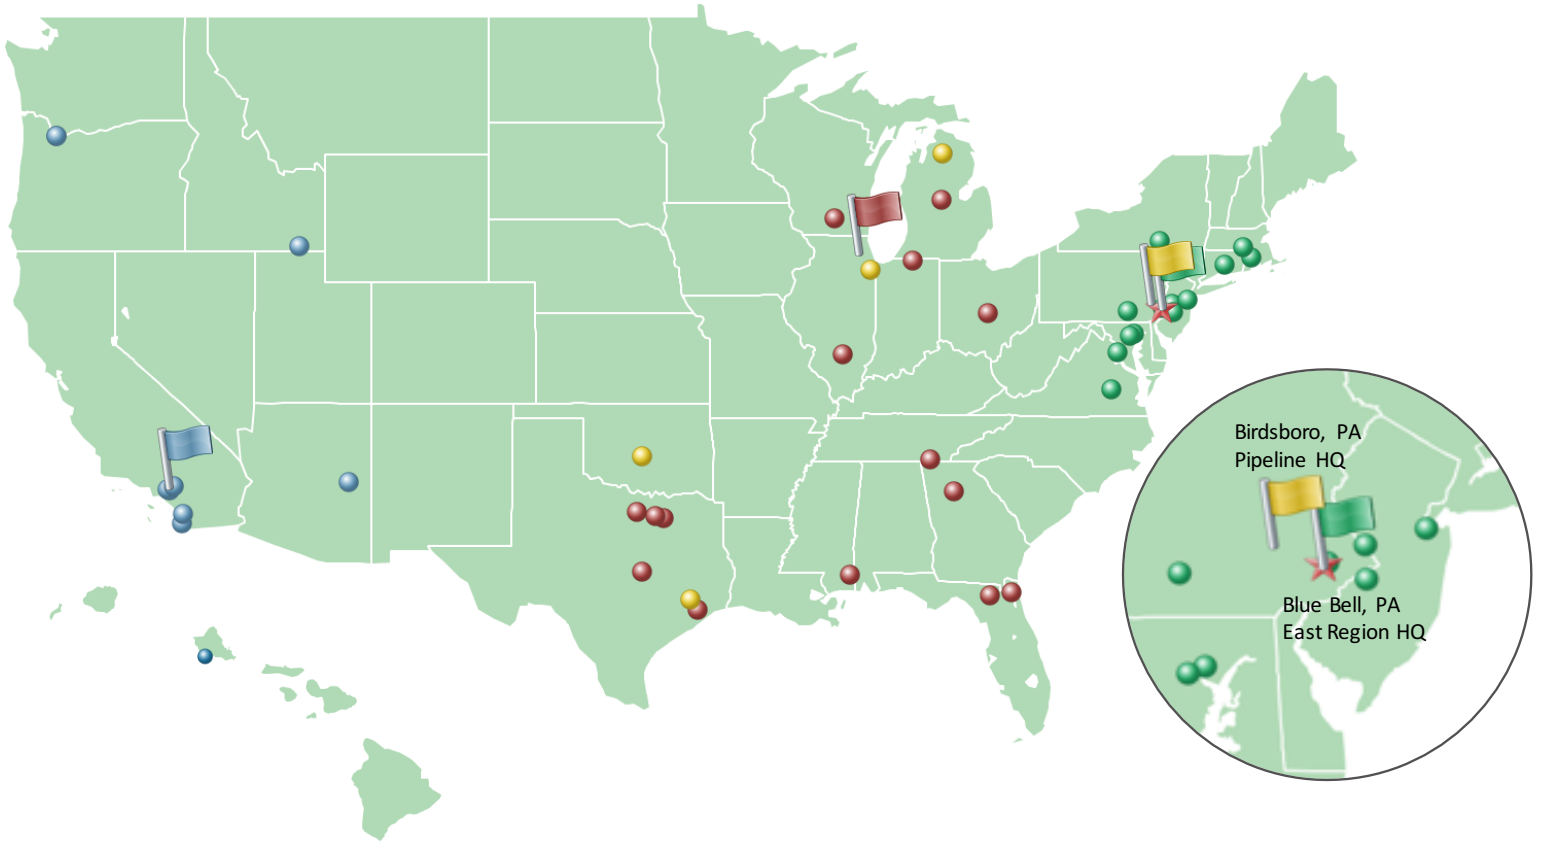

Safety is our top priority at Henkels & McCoy and is interwoven into everything we do. Through the consistent application of company-wide safety principles, training, and best practices, our vision is to be the safest contractor in the markets we serve and fulfill our goal and daily mission of **Nobody Gets Hurt!** Henkels & McCoy is also a founding member of the ET&D Partnership, a formal collaboration of industry stakeholders working to improve safety for workers in the electric line construction industry.

For our employees, our customers, and the communities around us, Henkels & McCoy is committed to building tomorrow. As former Chairman Paul M. Henkels once said, "Performance has built our business" is a statement of fact and a promise to the future."

PERFORMANCE has built our business...®
