

Power Distribution

A HENKELS & MCCOY Group Company

Henkels & McCoy provides construction and maintenance services on energized, de-energized, aerial, and underground distribution facilities for a wide variety of utility and industrial customers.

We rely on cutting-edge techniques, IBEW trained labor, proper hot line tooling and PPE, and the highest quality equipment in the industry to achieve our customers' objectives. With our national footprint and depth of experience, Henkels & McCoy has the knowledge and resources to perform power construction anywhere in the country. We have experience in distribution work through 69 kV and are skilled in all aspects of distribution construction.

We know the work, and we perform to your expectations on schedule, quality, and safety. Henkels & McCoy understands the criticality of system outage windows, and works to ensure they are not compromised. We have experience with the major vendors, engineering consultants, suppliers, and all distribution equipment. With our capabilities and understanding of your construction standards, our work will be performed seamlessly.

Whether your need be construction, or full Engineering, Procurement, and Construction (EPC), Henkels & McCoy provides the critical services necessary to fulfill your distribution project's requirements successfully, quickly, and thoroughly.

PERFORMANCE has built our business...®

POWER DISTRIBUTION SERVICE

- URD / conventional

Joint Trenching

- Composite crew installation solutions
- Design, installation, and termination
- Material purchase and control

Serving these markets

- Power
- Oil & Gas Pipeline
- Gas Distribution
- Communications

Henkels & McCoy at a glance...

Henkels & McCoy is one of the largest privately held firms serving the gas, power, communications, and information technology industries. We have more than eighty offices strategically located from New England to Hawaii.

Focus on project management

Henkels & McCoy's formalized Project Management Program represents a companywide commitment to excellence. Formal and on-line training focuses on a variety of skill sets including job tracking, cost management, leadership, client management, and communications skills. Our customers realize the benefits of our efforts through improved efficiency and reduced costs relative to scheduling, material management, self-inspection, reduction of administrative expense through electronic communications, and sophisticated tracking mechanisms.

Commitment to safety

Safety is a value at Henkels & McCoy and represents a commitment to protect our employees, customers, and the public. Based on this philosophy, we have created a corporate safety program that is well known throughout the industry and assures that our safety performance results from continual evaluation and implementation of company and industry wide best practices. In addition to our own initiatives, we will obviously uphold the standards and procedures adopted by our customer.
